

# Seaside School District 10

Code: **CA**  
Adopted: 7/26/07

## Administration Goals

The purpose of school administration is to help create and foster an environment in which students can learn most effectively. All administrative duties and functions will be appraised in terms of the contributions that they make to better instruction and to higher student motivation and achievement.

Proper administration of schools is vital to the success of the education program. Although the superintendent shoulders most of the responsibility within the policies set forth by the Board, neither the superintendent nor the Board can make all important decisions in individual schools.

The design of the administrative organization will be such that all schools are part of a single system subject to the policies set forth by the Board and implemented through a single chief administrator, the superintendent. Within District policies and regulations, principals will be responsible and accountable for the administration of their schools.

Major objectives of administration in the District will be:

1. To manage the District's various facilities, funds and programs effectively;
2. To provide professional advice and counsel to the Board and to any committees established by Board action;
3. To implement the management function through a team management approach so as to ensure effective learning by achieving such subgoals as:
  - a. Providing leadership in keeping abreast of current educational developments;
  - b. Arranging for the staff development necessary for establishing and operating learning programs that meet learner needs;
  - c. Coordinating efforts that lead to improvement of learning programs, facilities, equipment and materials.
