Board of Directors Seaside School District Clatsop County, Oregon

INDEPENDENT AUDITORS' REPORT

Report on the Financial Statements

We have audited the accompanying basic financial statements of the governmental activities and each major fund of the Seaside School District (the District) as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these basic financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of basic financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these basic financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the basic financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the basic financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the preparation and fair presentation of the basic financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the basic financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the Seaside School District thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

The District adopted the provisions of GASB Statement No. 68, Accounting and Reporting for Pensions, as well as the provisions of GASB Statement No. 71, Pensions Transition for Contributions Made Subsequent to the Measurement Date, for the year ended June 30, 2015. Our opinion is not modified with respect to this matter

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the required supplementary information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The budgetary comparison schedules presented as Required Supplementary Information, as listed in the table of contents, have been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America, and in our opinion are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The supplementary information, as listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, and is also not a required part of the basic financial statements. The supplementary information and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures,

including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information and the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

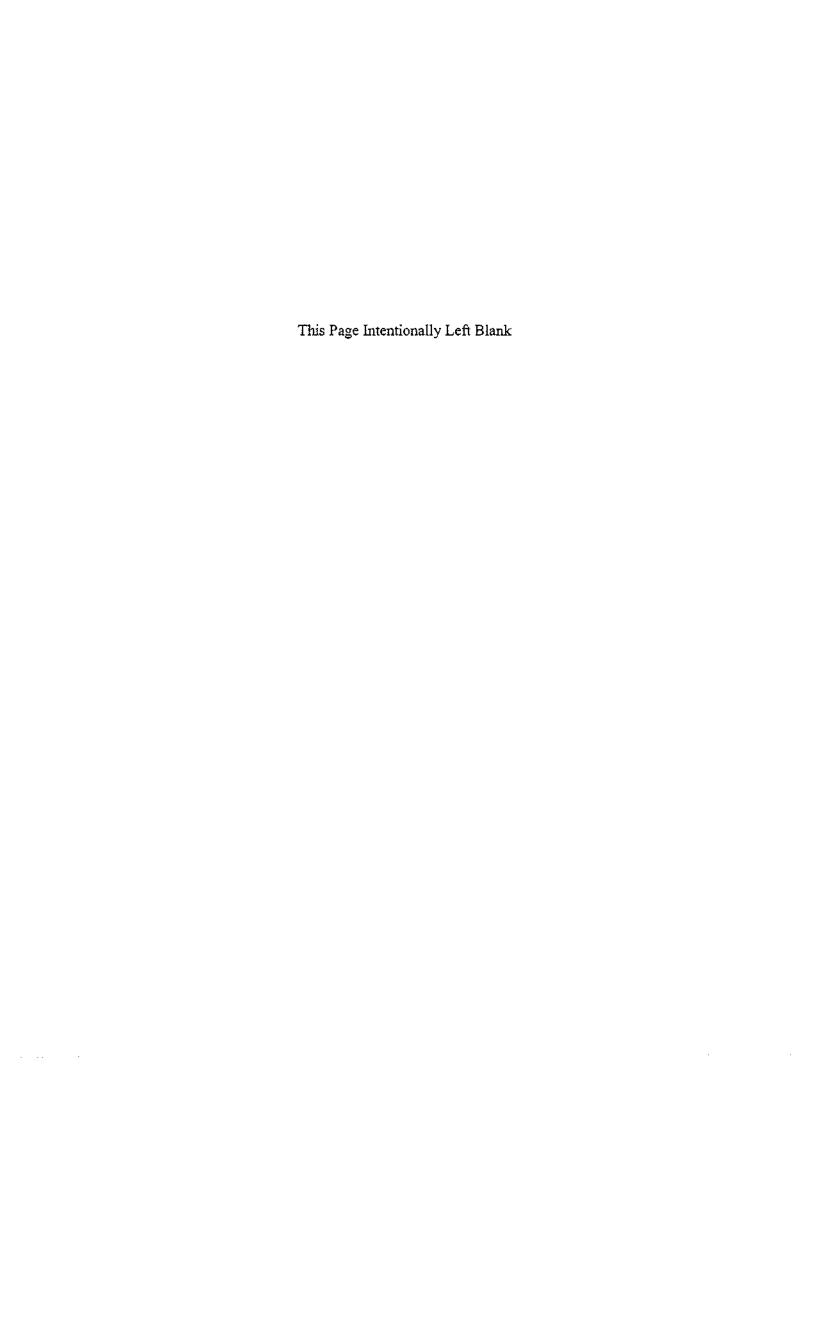

The listing of board members containing their term expiration dates, located before the table of contents, and the other information, as listed in the table of contents, have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Reports on Other Legal and Regulatory Requirements

In accordance with Government Auditing Standards, we have also issued our reports dated December 7, 2015 on our consideration of the internal control over financial reporting and on our tests of compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of the reports is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. The reports are an integral part of an audit performed in accordance with Government Auditing Standards in considering internal control over financial reporting and compliance.

In accordance with Minimum Standards for Audits of Oregon Municipal Corporations, we have issued our report dated December 7, 2015, on our consideration of compliance with certain provisions of laws and regulations, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules. The purpose of that report is to describe the scope of our testing of compliance and the results of that testing and not to provide an opinion on compliance.

SEASIDE SCHOOL DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS For the Year ended June 30, 2015

The Management's Discussion and Analysis of Seaside School District's financial performance provides an overview of the District's financial activities for the fiscal year ended June 30, 2015. Please read it in conjunction with the District's financial statements, which follow the Management's Discussion and Analysis. The discussion and analysis is designed to:

- 1) Assist the reader in focusing on significant financial issues;
- 2) Provide an overview of the District's financial activities;
- 3) Identify changes in the District's financial position;
- 4) Identify any material deviations from the adopted financial plan (budget); and,
- 5) Identify specific issues related to individual funds and the economic factors affecting the District.

The District's annual financial report consists of several sections. Taken together they provide a comprehensive view of the District's finances.

FINANCIAL HIGHLIGHTS

- On June 30, 2015, the District's Net Position was \$(4,383,884) due to implementation of GASB Statements 68 and 71.
- The District's governmental funds report a combined ending fund balance of \$3,357,333 which is an increase of \$350,356 in comparison with the prior year. Approximately \$2,772,347 is available for spending at the District's discretion.
- At the end of the fiscal year, the General Fund balance was \$2,736,372 [unassigned \$2,647,358 and restricted \$89,014] or about 17% of total General Fund expenditures of \$15,968,072. The District has no outstanding general obligation bond debt.
- Budgeted transfers out of the General Fund of \$187,536 were made to the Food Service Fund [\$184,264]; to the ASPIRE Fund [\$3,000]; and to the Title III Fund [\$272]. A budgeted Special Revenue Fund transfer [\$22,902] was done between Title IIA and Title IA. The District also transferred from remaining Debt Service funds to the Food Service Fund [\$41,800].
- The District has no outstanding construction commitments as of June 30, 2015.

MANAGEMENT'S DISCUSSION AND ANALYSIS REPORT

Basic Financial Statements: The basic financial statements include three components: 1) government-wide financial statements; 2) fund financial statements; and 3) notes to basic financial statements.

- Government-Wide Financial Statements: The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business. These statements include:
 - The Statement of Net Position: The statement of net position presents information on all of the assets and liabilities of the District as of the date on the statement. Net position is what remains after the liabilities have been paid off or otherwise satisfied. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

o The Statement of Activities: The statement of activities presents information showing how the net position of the District changed over the most recent fiscal year by tracking revenues, expenses, and other transactions that increase or reduce net position. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flow. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes, and, earned, but unused vacation/personal leave).

In the government-wide financial statements, the District's activities are shown in one category:

O Governmental activities: The District's basic functions are shown here, such as regular and special education, child nutrition services, transportation, administration, and facilities acquisition and construction. These activities are primarily financed through property taxes, timber revenue, and other intergovernmental revenues.

Fund Financial Statements: The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds, not the District as a whole. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Seaside School District 10, like other state and local governments, uses fund accounting to demonstrate compliance with finance-related legal requirements. All of the funds of the District can be classified in one category: governmental funds.

Governmental Funds: The governmental funds are used to account for the governmental activities. Unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as, on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the governmental-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near term financing decisions. Both the governmental funds Balance Sheet and the governmental funds Statement of Revenues, Expenditures and Changes in Fund Balances provide a reconciliation to facilitate this comparison between government funds and government-wide financial statements.

The District maintains four individual governmental funds. Information for the General Fund, Special Revenue Fund, Capital Projects Fund, and Debt Service Fund is presented separately in the governmental fund Balance Sheet and the governmental fund Statement of Revenues, Expenditures and Changes in Fund Balances.

Notes to Basic Financial Statements: The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other Information: In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information. The Management's Discussion and Analysis, is considered required supplementary information.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of Seaside School District 10, liabilities exceeded assets creating a negative net position of \$(4,383,884) on June 30, 2015. Due to the implementation of GASB Statements 68 and 71, beginning net position was restated as of July 1, 2014 to account for the net pension liability and pension related deferred inflows and outflows as of the beginning of the year based on the actuarial data provided by Oregon Public Employees Retirement System (PERS) and Milliman (Actuarial Provider) for the prior measurement date. Because the prior measurement valuation only provides data for restatement of the beginning of the current fiscal year (2014-2015), and no prior measurement data was provided by the actuaries related to the fiscal year ended June 30, 2013, there is no way to restate the prior year (2013-2014) data for the purposes of the comparison in this report. Therefore, the 2013-2014 information has been presented in the same manner as it was in last year's report. Pension expense was allocated to the functions in 2014-2015, which created significant unusual variances. Comparative data will be available in future years.

Total Net Position	\$	(4,383,884)	\$	1,996,820	\$	(6,380,704)

Capital assets, which consist of the land, buildings, building improvements, vehicles, and equipment, represent about 27% of the District's total assets. The contribution to prepaid pension costs (PERS UAL) represents 21% of the District's total assets and the remaining 52% of assets consist mainly of investments, cash, grants, and property taxes receivable.

The District's largest liabilities [88%] are for the repayment of net pension and other post employment benefit (OPEB) obligations, a short-term loan, general obligation bonds and the PERS UAL. The PERS UAL will be paid off in 2028. Other liabilities combined, representing about 12% of the District's total liabilities, consist almost entirely of payables on accounts, salaries and benefits and accrued compensated absences. During the current fiscal year, the District's net position decreased by \$(6,380,704).

Governmental activities: The key elements of the change in the District's net position for the year ended June 30, 2015 are as follows:

- State timber revenue increased by \$697,184 due to more timber being harvested in the early spring than was expected due to mild weather conditions. This is still a decrease of \$(348,877) compared to 2008 but demonstrates a positive trend in timber harvesting.
- Property tax revenues increased by \$296,570 due to strong assessed values in our taxing Districts and solid tax collections.
- Expenses decreased by \$(2,631,037) due to the implementation of GASB Statements 68 and 71.

Financial Analysis of the District's Funds: As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance related legal requirements.

Governmental Funds: The focus of the District's governmental funds is to provide information of relatively short-term cash flow and funding for future basic services. Such information is useful in assessing the District's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of a fiscal year. On June 30, 2015, the District's

Governmental Funds: The focus of the District's governmental funds is to provide information of relatively short-term cash flow and funding for future basic services. Such information is useful in assessing the District's financing requirements. In particular, *unreserved fund balance* may serve as a useful measure of a government's net resources available for spending at the end of a fiscal year. On June 30, 2015, the District's governmental funds reported combined ending fund balances of \$3,357,333 which is an increase of \$350,356 in comparison with the prior year.

General Fund: The General Fund is the chief operating fund of the District. As of June 30, 2015, the total fund balance of \$2,736,372 [unassigned or unreserved \$2,647,358 and restricted \$89,014].

Special Revenue Fund: These funds consist of local, state and federal grants, as well as, the Student Body Accounts, Food Service Account, and Scholarship Accounts. The combined ending fund balance for these accounts is \$404,115.

Debt Service Fund: The Debt Service Fund has a total fund balance of \$16,836. The District currently has no outstanding general obligation bond debt.

Capital Projects Fund: The Capital Fund has a total fund balance of \$200,010.

General Fund Budgetary Highlights: There were minor changes made to the General Fund adopted budget for the fiscal year ended June 30, 2015.

Three transfers were allocated from the General Fund to Special Funds. A transfer of \$184,264 was needed to support the District's food service program and eliminate the negative fund balance in that account. Over the last few years, this program has been more carefully managed but the program has continued to operate in the negative. The Oregon Department of Education Child Nutrition Program has declared this unacceptable. They are adamant that resources to cover the debt are required. A \$3,000 transfer was allocated to support the High School ASPIRE program which has a yearly \$3,000 State grant award and \$271 was allocated to address a negative fund balance in Title III.

Long-Term Debt: At the end of the current fiscal year, the District had total bonded debt outstanding for its limited tax pension obligation bond debt of \$8,540,000.

The District's Measure 5 Real Market Value for 2015 is \$4,104,889,086. State statue (ORS 328.245) establishes the limit on bonded indebtedness for K-12 school districts at 7.95 percent of Measure 5 Real Market Value. As of 2015, the District's limit on bonded indebtedness is \$326,338,682.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

Local property taxes collected coupled with State timber monies continue to be the most significant revenue factors for the District. For the year ended June 30, 2015, the taxes provided 84% of the District's program resources. State timber revenue provided 10% on the modified accrual basis.

Revenue projections are based on the assumptions that the economy will remain slow-moving but with modest improvements over the next year; inflation will be moderate; and timber sales and harvesting will continue to increase. Overall District revenues remain stable with upward momentum. Also significant in the District's property tax collections is that, according to the County, the original paperwork on the City of Seaside's Urban Renewal Plan (U/R) is set to expire at the end of the 2014-2015 tax year. Next year's budget will be prepared with the assumption that the U/R will expire and an additional 74 million dollars will be included in the Seaside School District 10's tax value calculation. For reference, those additional dollars this year would have equated to an increase in District revenue of approximately \$327,000.

Seaside School District 10 does not receive any State School Fund monies due to the fact that the local revenues applicable to the State School Fund formula are too high. Based on current Oregon Department of Education (ODE) revenue projections for educational entities, it does not appear that the District will fall into the State School Formula again next year. In the future, if the state timber revenue decreases, property tax collections weaken, and/or assessed value growth rates stagnate; the District may be forced to rely on the State School Fund Grant. This would put the District in a lower funding level which will mean budget reductions.

Seaside School District will end year three of a five-year local option levy. This levy is a temporary property tax that is used to fund school district operations. It provided an additional \$1,226,222 in current and prior local option tax revenue (included in the above 84% local property tax figure). This levy costs property tax payers \$0.52 per thousand of assessed value each year for five years and does not exceed the Measure 5 limit of \$5 per thousand of real market value. The District is aware that revenues from the local option level will likely not be as strong as anticipated. As the Real Market Value and Assessed Value on properties move closer together, the tax gap that is used in the local option calculation also becomes smaller. In 2014-2015, the District saw another increase in the compression loss which translates into a decrease in expected revenue. The District will pursue another five-year local option levy in November 2015.

The District receives the majority of revenue (property taxes) in November and relies on an ending/beginning fund balance that is able to cover operating costs from July through October. Our fund balance has not been sufficient which has required us to participate in a short-term operating loan program through Oregon School Boards Association [\$975,000].

The District will be implementing a full-day Kindergarten program; as well as, a social competencies classroom in the 2015-2016 school year. This will require an increase in licensed teaching staff and classified educational assistant staff.

In an attempt to continue essential facility repair and maintenance, allocations for a Gearhart Elementary roofing project [\$200,000]; as well as, two roof pack replacements at Broadway Middle School [\$15,000].

An allocation [\$280,000] for the purchase of two new buses have been appropriated as part of a regular vehicle replacement schedule; as well as, the purchase of a 9-10 passenger van that could be used for smaller student/staff activities.

General Fund and Debt Service Fund transfers will be allocated to the following Special Revenue Funds: ASPIRE program [\$7,250] and the Food Service program [\$128,172 and \$8,213].

All employee groups' contracts started effective July 1, 2014 and expire June 30, 2017. For next year, all employee groups have agreed to a 2.25% salary increase and the same insurance cap amount of \$1,525.

On average, PERS rates are dropping in the next contribution rate cycle (7/1/15-6/30/17). For Seaside School District 10, rates will move from 14.23% to 11.76% (decrease of 2.47%) for Tier 1/Tier 2 and 12.23% to 7.07% (decrease of 5.16%) for OPSRP. This translates into an approximant savings of \$300,000. According to PERS, "..the overall change in rates is reflective of both prudent legislative decisions and policy decisions the board made, coupled with, the rates of return being very positive for the last two years." The legislative changes, specifically, Senate Bill 822 and SB 861 reduced the cost-of-living adjustments for PERS retirees which resulted in reducing the unfunded actuarial liability (UAL) by about \$4.5 billion. The elimination of tax remedy benefits for PERS benefit recipients who do not pay state income taxes in Oregon, because they do not reside in Oregon, reduced the UAL by \$450 million. These legislative changes are being challenged in court; therefore, it remains to be seen if the savings will be realized. Nothing will change if the court upholds the Legislature's changes to PERS; however, if it overturns them, the system is going to become considerably more expensive.

Seaside School District 10's enrollment fluctuated by 49 students from September 2014 to June 2015. Enrollment for 2015-2016 is projected to be the same or similar.

As a reminder, in May 2012, the long-standing tax appeals between Georgia Pacific Wauna Mill and Clatsop County was settled. The terms of the settlement include a refund to Georgia Pacific in the amount of \$2,500,000 and establishing the Real Market Value for 2011-2012 at \$291,000,000. Because the settlement is over \$1 million, as per the collaborative taxing districts' intergovernmental agreement with the County regarding repayment, the District is looking at an estimated yearly tax revenue reduction for the next 10 years. The reduction amount in 2014-2015 was \$59,834.56.

REQUESTS FOR INFORMATION

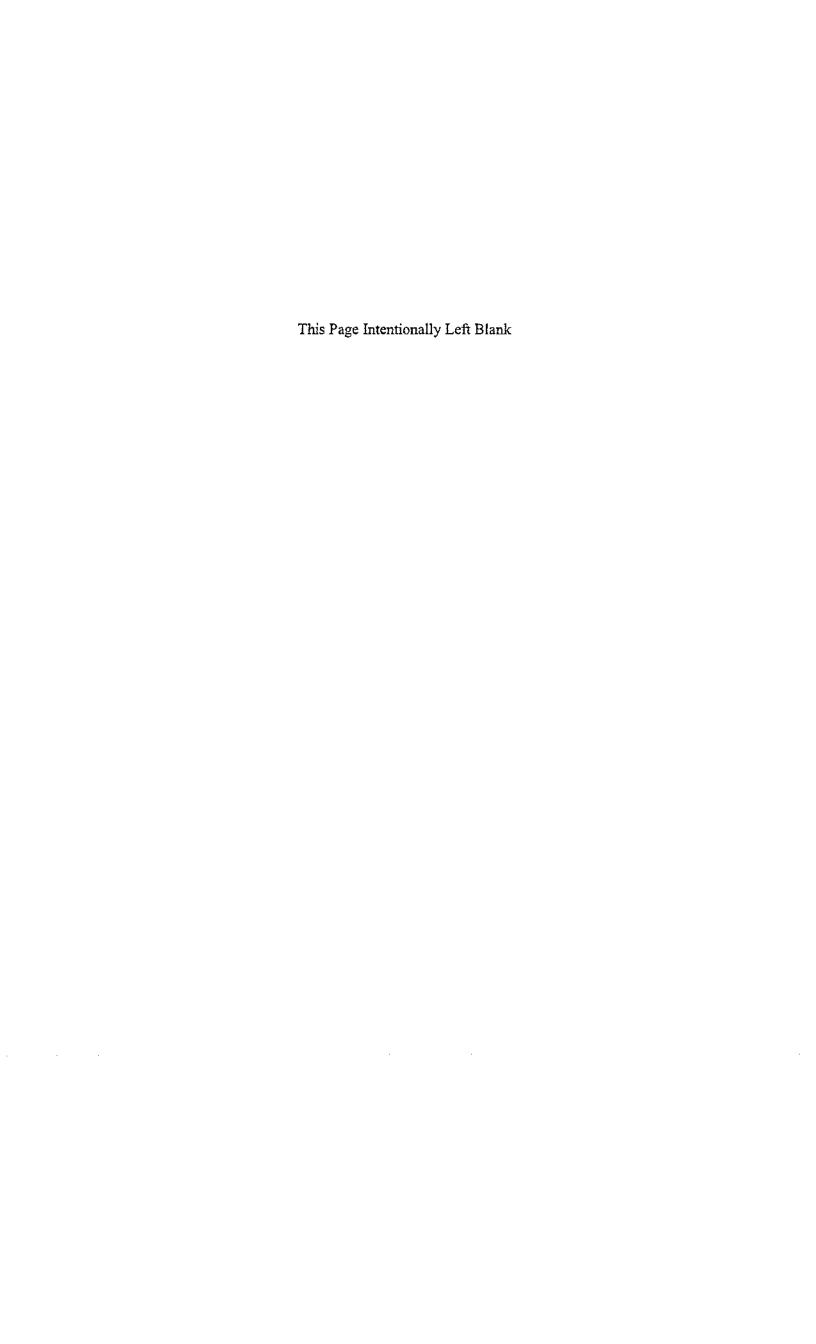

This financial report is designed to present the user (citizens, taxpayers, investors, and creditors) with a general overview of the District's finances and to demonstrate the District's accountability. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the District's Business Manager(s) at 1801 South Franklin Street, Seaside, Oregon 97138.

Reconciliation of the Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances to the Statement of Activities For the Year Ended June 30, 2015

Total Net Changes in Fund Balances - Governmental Funds		\$ 350,356
The Pension Expense represents the changes in Net Pension Asset (Liability) from year to year due to changes in total pension liability and the fair value of pension plan net position available to pay pension benefits		3,414,357
Repayment of bond principal, capital leases, compensated absences and post retirement obligations are expenditures in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position. Additions to these liabilities are an expense for the Statement of Activities but not the governmental funds. This is the amount by which proceeds exceeded repayments: Capital Lease Repaid PERS Bond Repaid Loan Repaid Accrued Compensated Absences	:	409,289
Capital asset additions are reported in governmental funds as expenditures. However, in the Statement of Activities, the cost of those assets is capitalized and allocated over their estimated useful lives as depreciation expense. This is the amount by which capital assets additions exceeds depreciation.	I	
Capital Asset Additions (Net) Depreciation Expense (Net)	376,132 (163,671)	. 212,461
The prepaid future pension costs; this payment was an expenditure in the governmental funds, and is capitalized in the Statement of Net Position and amortized in the Statement of Activities.	3	-
Debt issue cost should be recongnized as an expense in the period incurred Bond Issuance Cost		-
Net pension activity is not reported to the governmental funds.		32,548
Net OPEB activity is not reported in the governmental funds		2,661
Property tax revenue in the Statement of Activities differs from the amount reported in the governmental funds. In the governmental funds, which are on the modified accrual basis, the District recognizes unavailable revenue for all property taxes levied but not received; however, in the Statement of Activities, there is no unavailable revenue and the full property tax receivable is accrued	:	(119,912)
Change in Net Position of Governmental Activities		S 4,301,760

NOTES TO BASIC FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. REPORTING ENTITY

Administrative School District No. 10 (Seaside) (the District) is a municipal corporation organized under provisions of Oregon Revised Statutes Chapter 332 for the purpose of operating elementary and secondary public schools. Control is vested in its elected Board of Directors. Administrative functions are delegated to individuals who report to and are responsible to the Board. The chief administrative officer is the Superintendent-Clerk. As required by accounting principles generally accepted in the United States of America, all activities have been included in these basic financial statements.

The major sources of revenue are property taxes, timber sales, and grants from the federal and state governments. Monies are expended to provide elementary and secondary education to school-age children residing within the school district boundaries.

The District has authority to levy taxes on property within the district for elementary and secondary education and for payment of general obligation bonds. It has exercised that authority for several years.

Component units, as established by the Governmental Accounting Standards Board (GASB) Statement 61, are separate organizations that are included in the District's reporting because of the significance of their operational or financial relationships with the District. Based on these criteria, the District is not a component unit of another entity, nor is any other entity required to be included in the financial statements of the District.

B. MEASUREMENT FOCUS, BASIS OF ACCOUNTING AND BASIS OF PRESENTATION

GOVERNMENT-WIDE FINANCIAL STATEMENTS (GWFS)

The Statement of Net Position and Statements of Activities display information about the District as a whole.

The Statement of Net Position and the Statement of Activities were prepared using the economic resources measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Revenues, expenses, gains, losses, assets, and liabilities resulting from nonexchange transactions are recognized in accordance with the requirements of GASB Statement No. 33 "Accounting and Financial Reporting for Nonexchange Transactions."

Program Revenues included in the Statement of Activities derive directly from the program itself or from parties outside the District's taxpayers or citizenry, as a whole; program revenues reduce the cost of the function to be financed from the general revenues. Program revenues include (1) charges for fees, rentals, material, supplies or services provided, (2) operating grants and contributions and (3) capital grants and contributions. Revenues that are not classified as program revenues, including property taxes and state support, are presented as general revenues.

All direct expenses are reported by function in the Statement of Activities. Direct expenses are those that are clearly identifiable with a function. Interest on general long-term debt is considered an indirect expense and is reported separately on the Statement of Activities.

NOTES TO BASIC FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

FUND FINANCIAL STATEMENTS

In the process of aggregating data for the Statement of Net Position and the Statement of Activities, some amounts reported as interfund activity and balances in the funds were eliminated or reclassified. Interfund receivables and payables were eliminated to minimize the "grossing up" effect on assets and liabilities.

The accounts are organized and operated on the basis of funds. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. The minimum numbers of funds are maintained consistent with legal and managerial requirements.

GOVERNMENTAL FUND TYPES

Governmental funds are used to account for the general government activities. Governmental fund types use the flow of current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they are "measurable and available). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to pay liabilities of the current period. Property tax revenue and proceeds from sale of property are not considered available and, therefore, are not recognized until received. Expenditures are recorded when the liability is incurred, except for unmatured interest on general long-term debt which is recognized when due, interfund transactions, and certain compensated absences and claims and judgments which are not recognized as expenditures because they will be liquidated with future expendable financial resources.

Revenues susceptible to accrual are interest, state, county and local shared revenue and federal and state grants. Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other grant requirements have been met.

There are the following major governmental funds:

GENERAL FUND

This fund accounts for all financial operations that are not accounted for in any other fund. Principal sources of revenue are property taxes and distributions from the State of Oregon. Expenditures in the fund are made for instructional purposes and related support services.

SPECIAL REVENUE FUND

This fund accounts for revenues and expenditures of grants and scholarships. Principal revenue sources are federal and state grants.

DEBT SERVICE FUND

Bond principal and interest payments are accounted for in the Debt Service Fund. The main source of revenue is local property taxes.

NOTES TO BASIC FINANCIAL STATEMENTS

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

GOVERNMENTAL FUND TYPES (Continued)

CAPITAL PROJECTS FUND

This fund accounts for activities related to acquisition, construction, and furnishing of facilities.

USE OF ESTIMATES

The preparation of the basic financial statements in conformity with accounting principles generally accepted in the United States of America requires the management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the basic financial statements and reported amounts of revenues, expenditures and expenses during the reporting period. Actual results could differ from those estimates.

CASH AND CASH EQUIVALENTS

For financial reporting purposes, all highly liquid investments with a maturity of three months or less when purchased are considered to be cash equivalents.

PROPERTY TAXES

Uncollected real and personal property taxes are reflected on the statement of net position and the balance sheet as receivables. Uncollected taxes are deemed by management to be substantially collectible or recoverable through liens; therefore no allowance for uncollectible taxes has been established. All property taxes receivable are due from property owners within the District.

Under state law, county governments are responsible for extending authorized property tax levies, computing tax rates, billing and collecting all property taxes, and making periodic distributions of collections to entities levying taxes. Property taxes become a lien against the property when levied on July 1 of each year and are payable in three installments due on November 15, February 15 and May 15. Property tax collections are distributed monthly except for November, when such distributions are made weekly.

GRANTS

Unreimbursed expenditures due from grantor agencies are reflected in the basic financial statements as receivables and revenues. Grant revenues are recorded at the time eligible expenditures are incurred. Cash received from grantor agencies in excess of related grant expenditures is recorded as a liability in the balance sheet and statement of net position.

NOTES TO BASIC FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

SUPPLIES INVENTORIES

District operating supplies, maintenance supplies, and food and other cafeteria supplies are stated at average invoice cost. Commodities purchased from the United States Department of Agriculture in the Food Service Fund are included in inventories at USDA wholesale value. Inventory is accounted for based on the consumption method in the government-wide statements and on the purchase method in the governmental statements. Under the consumption method inventory is recorded when purchased and expenditures/expenses are recorded when inventory items are used. Donated commodities consumed during the year are reported as revenues and expenditures. The amount of unused donated commodities at the balance sheet date is considered immaterial by management for reporting purposes.

CAPITAL ASSETS

Capital assets, which include land, buildings, equipment, and vehicles, are reported in the government-wide financial statements. Capital assets are defined as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Capital assets are recorded at historical cost or estimated historical cost.

Donated Capital assets are recorded at their estimated fair market value on the date donated. The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend assets lives are not capitalized.

Capital assets are depreciated using the straight-line method over the following useful lives:

Land

Not depreciated

Land Improvement

20 years

Buildings

45 years

Equipment

5 to 10 years

COMPENSATED ABSENCES

It is policy to permit employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for unpaid accumulated sick leave since there is no policy to pay any amounts when employees separate from service with the District. All vacation pay is accrued in the government-wide statements.

LONG-TERM OBLIGATIONS

In the government-wide financial statements long-term debt and other long-term obligations are reported as liabilities in the governmental activities. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight line method, which is substantially the same as the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses.

NOTES TO BASIC FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

NET POSITION

Net position is comprised of the various net earnings from operations, non-operating revenues, expenses and contributions of capital. Net position is classified in the following three categories.

Net Investment in Capital Assets – consists of all capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

Restricted – consists of external constraints placed on asset use by creditors, grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.

Unrestricted – consists of all other assets that are not included in the other categories previously mentioned.

RETIREMENT PLANS

Substantially all of the School's employees are participants in the State of Oregon Public Employees Retirement System (PERS). For the purpose of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about fiduciary net position of PERS and additions to/deductions from PERS's fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. GASB Statements 68 and 71 have been implemented as of July 1, 2014.

DEFERRED OUTFLOWS/INFLOWS OF RESOURCES

In addition to assets, the Statement of Financial Position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense / expenditure) until then. The District does not have any items that qualify for reporting in this category.

In addition to liabilities, the Statement of Financial Position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. At June 30, 2015, there were deferred inflows of \$3,762,445 in the statement of net position representing net pension related deferrals related to the implementation of GASB 68. There is also a deferred inflow in the governmental funds of \$986,604 representing unavailable revenue from property tax.

NOTES TO BASIC FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

FUND BALANCE

GASB Statement No. 54, Fund Balance Reporting and Governmental Fund-type Definitions is followed. The objective of this statement is to enhance the usefulness of fund balance information by providing clearer fund balance classifications that can be more consistently applied and by clarifying the existing governmental fund-type definitions. This statement establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed on the use of the resources reported in governmental funds. Under this standard, the fund balance classifications are nonspendable, restricted, committed, assigned, and unassigned.

- Nonspendable fund balance represents amounts that are not in a spendable form.
- Restricted fund balance represents amounts that are legally restricted by outside parties for a specific purpose (such as debt covenants, grant requirements, donor requirements, or other governments) or are restricted by law (constitutionally or by enabling legislation).
- <u>Committed fund balance</u> represents funds formally set aside by the governing body for a particular purpose. The use of committed funds would be approved by resolution.
- Assigned fund balance represents amounts that are constrained by the expressed intent to use resources
 for specific purposes that do not meet the criteria to be classified as restricted or committed. Intent can
 be stipulated by the governing body or by an official to whom that authority has been given by the
 governing body. Authority to assign ending fund balances has been granted to the Superintendent and
 Business Manager.
- <u>Unassigned fund balance</u> is the residual classification of the General Fund. Only the General Fund may report a positive unassigned fund balance. Other governmental funds would report any negative residual fund balance as unassigned.

There were no nonspendable or committed fund balance amounts at year end.

The governing body has approved the following order of spending regarding fund balance categories: Restricted resources are spent first when both restricted and unrestricted (committed, assigned or unassigned) resources are available for expenditures. When unrestricted resources are spent, the order of spending is committed (if applicable), assigned (if applicable) and unassigned.

2. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

BUDGETARY INFORMATION

A budget is prepared and legally adopted for each fund in accordance with Oregon Local Budget Law. The budget is prepared using the modified accrual basis of accounting.

NOTES TO BASIC FINANCIAL STATEMENTS

2. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY (Continued)

BUDGETARY INFORMATION (Continued)

The budgeting process begins by appointing Budget Committee members in late fall. Budget recommendations are developed by management through spring, with the Budget Committee meeting and approving the budget document in late spring. Public notices of the budget hearing are generally published in May or June, and the hearing is held in June. The budget is adopted, appropriations are made and the tax levy is declared no later than June 30. Expenditure budgets are appropriated at the major function level (instruction, support services, community services, debt service, contingency, and transfers) for each fund.

Expenditure appropriations may not legally be over expended, except in the case of grant receipts which could not be reasonably estimated at the time the budget was adopted.

Unexpected additional resources may be added to the budget through the use of a supplemental budget and appropriation resolution. Supplemental budgets less than 10% of the fund's original budget may be adopted by the Board of Directors at a regular meeting. A supplemental budget greater than 10% of the fund's original budget requires hearings before the public, publication in newspapers and approval by the Board.

Original and supplemental budgets may be modified by the use of appropriation transfers between the levels of control (major function levels). Such transfers require approval by the Board.

Budget amounts shown in the basic financial statements include the original budget amounts. Appropriations lapse at the end of each fiscal year.

Expenditures are appropriated at any or all of the following levels of control for each fund:

Instruction
Support Services
Community Services
Facilities Acquisition/Construction

Debt Service Interfund Transfers Operating Contingency

Expenditures of the various funds were within authorized appropriations, except the General Fund Debt Service principle expenditures exceeded appropriations by \$2,014, and principal payments by \$635.

3. BUDGET/GAAP REPORTING DIFFERENCES

The budgetary statements provided as part of supplementary information in this report are presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The budgetary basis of accounting is substantially the same as generally accepted accounting principles in the United States of America with the exceptions that capital outlay expenditures are expensed when purchased and depreciation and amortization are not recorded, property taxes are recorded as revenue when received, inventories of supplies are budgeted as expenditures when purchased, debt, OPEB liabilities, and compensated absences are expensed as paid instead of when incurred, pension costs are not recorded until paid, and debt is recorded as a revenue when borrowed.

NOTES TO BASIC FINANCIAL STATEMENTS

4. CASH AND INVESTMENTS

Cash and Investments (recorded at cost) consisted of:

Deposits	with	Financial	Institutions:
----------	------	-----------	---------------

Petty Cash	\$ 550
Demand Deposits	108,241
Certificates of Deposit	82,963
Savings Bonds	15,000
Investments -LGIP	3,981,447

Total Cash and Investments \$ 4,188,201

DEPOSITS

Deposits with financial institutions include bank demand deposits. Oregon Revised Statutes require deposits to be adequately covered by federal depository insurance or deposited at an approved depository as identified by the Treasury. There is no formal adopted deposit and investment policy.

In the case of deposits, this is the risk that in the event of a bank failure, the deposits may not be returned. There is no deposit policy for custodial credit risk. As of June 30, 2015, combined bank balances totaled \$1,374,857, of which \$500,000 was insured by FDIC and the remaining \$874,857 was collateralized in the Oregon Public Funds Collateralization Program (PFCP).

INVESTMENTS

Statutes authorize investing in obligations of the U.S. Treasury and U.S. agencies, bankers' acceptances, repurchase agreements, commercial paper rated A-1 by Fitch Ratings and Standard & Poor's Corporation or P1 by Moody's Commercial Paper Record (A-2/P-2 if Oregon commercial paper) and the State Treasurer's Investment Pool. The investments during the year were invested in the State Treasurer's Investment Pool.

The State Treasurer's Local Government Investment Pool is not registered with the U.S. Securities and Exchange Commission as an investment company. The Oregon Revised Statues and the Oregon Investment Council govern the State's investment policies. The State Treasurer is the investment officer for the Council and is responsible for all funds in the State Treasury. These funds must be invested, and the investments managed, as a prudent investor would, exercising reasonable care, skill and caution. Investments in the Fund are further governed by portfolio guidelines issued by the Oregon Short-Term Fund Board (OSTFB), which establish diversification percentages and specify the types and maturities of investments. The portfolio guidelines permit securities lending transactions as well as investments in repurchase agreements and reverse repurchase agreements.

NOTES TO BASIC FINANCIAL STATEMENTS

4. CASH AND INVESTMENTS (Continued)

INVESTMENTS (Continued)

Amounts in the State Treasurer's Local Government Investment Pool are not required to be collateralized. As of June 30, 2015, there is no material difference between the fair value of the District's position in the State Treasurer's Local Government Investment Pool and the value of the pool shares. There were no known violations of legal or contractual provisions for deposits and investments during the fiscal year.

At year-end, the investment balances were as follows (carrying value is the same as fair market value):

	Investment Maturities (in Months)			
Investment Type	Fair Value	Less than 3	More than 3	
State Treasurer's Investr	\$3,981,447	\$3,981,447	\$ -	
Total Investments	\$3,981,447	\$3,981,447	<u>\$</u> -	

INTEREST RATE RISK

Oregon Revised Statues require investments to not exceed a maturity of 18 months, except when the local government has adopted a written investment policy that was submitted to and reviewed by the OSTFB. Cash not expected or used within thirty days is invested in the Local Government Investment Pool which manages investment rate risk. Other funds are invested in certificates of deposit with maturities of less than one year.

CREDIT RISK

Oregon Revised Statues do not limit investments as to credit rating for securities purchased from US Government Agencies or USGSE. The State Investment Pool is not rated.

CONCENTRATION OF RISK

At June 30, 2015, 100% of total investments were in the State Treasurer's Investment Pool, savings bonds and certificates of deposit. State statues do not limit the percentage of investments in these instruments.

NOTES TO BASIC FINANCIAL STATEMENTS

5. ACCOUNTS / GRANTS RECEIVABLE

Special revenue fund grants receivable are comprised of claims for reimbursement of costs under various federal and state grant programs. Accounts receivable is mostly comprised of grant money. No allowance for uncollectible accounts has been recorded because all receivables are considered by management to be collectible.

6. CAPITAL ASSETS

The changes in capital assets for the fiscal year ended June 30, 2015 are as follows:

	7/1/2014		Additions		(Deletions)		6	/30/2015
Non-Depreciable Capital Assets								
Land	\$	86,420	\$		\$		\$	86,420
Total Non-Depreciable Capital Assets		86,420		-				86,420
Depreciable Capital Assets								
Land Improvements		639,505	4	12,816		-		682,321
Buildings & Improvements		7,895,075		-		•		7,895,075
Equipment		229,667	18	30,804		-		410,471
Licensed Vehicles	1	1,528,080	2:	23,968		(71,456)		1,680,592
Total Depreciable Capital Assets	10),292,327	4	47,588		(71,456)		10,668,459
Accumulated Depreciation								
Land Improvements		562,582		8,312		-		570,894
Buildings & Improvements	:	5,556,108	1:	31,524		-		5,687,632
Equipment		225,114		3,376		•		228,490
Licensed Vehicles		953,446		91,915		(71,456)		973,905
Total	•	7,297,250	\$ 2:	35,127	\$	(71,456)		7,460,921
Total Net Capital Assets	\$ 3	3,081,497					\$	3,293,958

The cost value of \$71,456 was removed when the District disposed of one bus and two passenger vehicles

Depreciation expense for the year was charged to the following functions:

Instruction	\$145,682
Support Services	81,143
Community Services	8,302
Total Depreciation Expense	\$235,127

NOTES TO BASIC FINANCIAL STATEMENTS

7. RETIREMENT PLANS

PLAN DESCRIPTION

The Oregon Public Employees Retirement System (PERS) consists of a single cost-sharing multiple-employer defined benefit plan. All benefits of the system are established by the legislature pursuant to Oregon Revised Statute (ORS) Chapters 238 and 238A. Oregon PERS produces an independently audited Comprehensive Annual Financial Report which can be found at:

http://www.oregon.gov/pers/Pages/section/financial_reports/financials.aspx.

- a. PERS Pension (Chapter 238) The ORS Chapter 238 Defined Benefit Plan is closed to new members hired on or after August 29, 2003.
 - i) Pension Benefits. The PERS retirement allowance is payable monthly for life. It may be selected from 13 retirement benefit options. These options include survivorship benefits and lump-sum refunds. The basic benefit is based on years of service and final average salary. A percentage (2.0 percent for police and fire employees, and 1.67 percent for general service employees) is multiplied by the number of years of service and the final average salary. Benefits may also be calculated under either a formula plus annuity (for members who were contributing before August 21, 1981) or a money match computation if a greater benefits results.
 - ii) Death Benefits. Upon the death of a non-retired member, the beneficiary receives a lump-sum refund of the member's account balance (accumulated contributions and interest). In addition, the beneficiary will receive a lump-sum payment from employer funds equal to the account balance, provided one or more of the following contributions are met:
 - · member was employed by PERS employer at the time of death,
 - · member died within 120 days after termination of PERS covered employment,
 - · member died as a result of injury sustained while employed in a PERS-covered job, or
 - member was on an official leave of absence from a PERS-covered job at the time of death.
 - iii) Disability Benefits. A member with 10 or more years of creditable service who becomes disabled from other than duty-connected causes may receive a non-duty disability benefit. A disability resulting from a job-incurred injury or illness qualifies a member (including PERS judge members) for disability benefits regardless of the length of PERS-covered service. Upon qualifying for either a non-duty or duty disability, service time is computed to age 58 (55 for police and fire members) when determining the monthly benefit.
 - iv) Benefit Changes After Retirement. Members may choose to continue participation in a variable equities investment account after retiring and may experience annual benefit fluctuations due to changes in the market value equity investments. Under ORS 238.360 monthly benefits are adjusted annually through cost-of-living changes. The cap on the COLA will vary based on the amount of the annual benefit.
- b. OPSRP Pension Program (OPSRP DB). The ORS Chapter 238A Defined Benefit Pension Program provides benefits to members hired on or after August 29, 2003.

NOTES TO BASIC FINANCIAL STATEMENTS

7. RETIREMENT PLANS (Continued)

PLAN DESCRIPTION (Continued)

- i) Pension Benefits. This portion of OPSRP provides a life pension funded by employer contributions. Benefits are calculated with the following formula for members who attain normal retirement age:
 - Police and fire: 1.8 percent is multiplied by the number of years of service and the final average salary. Normal retirement age for police and fire members is age 60 or age 53 with 25 years of retirement credit. To be classified as a police and fire member, the individual must have been employed continuously as a police and fire member for at least five years immediately preceding retirement.
 - General service: 1.5 percent is multiplied by the number of years of service and the final average salary. Normal retirement age for general service members is age 65, or age 58 with 30 years of retirement credit.

A member of the pension program becomes vested on the earliest of the following dates: the date the member completes 600 hours of service in each of five calendar years, the date the member reaches normal retirement age, and, if the pension program is terminated, the date on which termination becomes effective.

- ii) Death Benefits. Upon the death of a non-retired member, the spouse or other person who is constitutionally required to be treated in the same manner as the spouse, receives for life 50 percent of the pension that would otherwise have been paid to the deceased member.
- iii) Disability Benefits. A member who has accrued 10 or more years of retirement credits before the member becomes disabled or a member who becomes disabled due to job-related injury shall receive a disability benefit of 45 percent of the member's salary determined as of the last full month of employment before the disability occurred.
- iv) Benefit Changes After Retirement. Under ORS 238A.210 monthly benefits are adjusted annually through cost-of-living changes. The cap on the COLA will vary based on the amount of the annual benefit.

FUNDING POLICY

PERS funding policy provides for monthly employer contributions at actuarially determined rates. These contributions, expressed as a percentage of covered payroll, are intended to accumulate sufficient assets to pay benefits when due. The funding policy applies to the PERS Defined Benefit Plan and the Other Postemployment Benefit Plans. Employer contribution rates during the period were based on the December 31, 2011 actuarial valuation, which became effective July 1, 2013. The state of Oregon and certain schools, community colleges, and political subdivision have made unfunded actuarial liability payments and their rates have been reduced. Employer contributions for the year ended June 30, 2015 were \$1,153,588, excluding amounts to fund employer specific liabilities.

At June 30, 2015, the District reported a net pension asset of \$2,536,434 for its proportionate share of the net pension asset. The pension asset was measured as of December 31, 2012, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At December 31, 2012, the District's proportion was 0.11 percent.

ACTUARIAL VALUATIONS

The employer contribution rates effective July 1, 2013 through June 30, 2015, were set using the entry age normal actuarial cost method. For the Tier One/Tier Two component of the PERS Defined Benefit Plan, this method produced an employer contribution rate consisting of (1) an amount for normal cost (estimated amount necessary to finance benefits earned by employees during the current service year), (2) an amount for the amortization unfunded actuarial accrued liabilities, which are being amortized over a fixed period with new unfunded actuarial liabilities being amortized over 20 years.

For the OPSRP Pension Program component of the PERS Defined Benefit Plan, this method produced an employer rate consisting of (a) an amount for normal cost (the estimated amount necessary to finance benefits earned by the employees during the current service year), (b) an actuarially determined amount for funding a disability benefit component, and (c) an amount for the amortization of unfunded actuarial accrued liabilities, which are being amortized over a fixed period with new unfunded actuarial accrued liabilities being amortized over 16 years.

Actuarial Methods and Assumptions:

Valuation date	December 31, 2012 rolled forward to June 30, 2014
Experience Study	2012, Published September 18, 2013
Report	
Actuarial cost method	Entry Age Normal
Amortization	Amortized as a level percentage of payroll as layered amortization
method	bases over a closed period; Tier One/Tier Two UAL is amortized
	over 20 years and OPSRP pension UAL is amortized over 16 years
Asset valuation method	Market value of assets
Inflation rate	2.75 percent

	females) of the RP-2000 static combined disabled mortality sex-
:	distinct table.

NOTES TO BASIC FINANCIAL STATEMENTS

7. RETIREMENT PLANS (Continued)

ACTUARIAL VALUATIONS (Continued)

Actuarial valuations of an ongoing plan involve estimates of value of reported amounts and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. Experience studies are performed as of December 31 of even numbered years. The method and assumptions shown are based on the 2012 Experience Study which is reviewed for the four-year period ending December 31, 2012.

Discount Rate – The discount rate used to measure the total pension liability was 7.75 percent for the Defined Benefit Pension Plan. The projection of cash flows used to determine the discount rate assumed that contributions from the plan members and those of the contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments for the Defined Benefit Pension Plan was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the District's proportionate share of the net pension liability to changes in the discount rate – The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.75 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.75 percent) or 1-perentage-point higher (8.75 percent) than the current rate.

Changes in Plan Provisions Subsequent to Measurement Date: The Oregon Supreme Court on April 30, 2015, ruled in the Moro decision, that the provisions of Senate Bill 861, signed into law in October 2013, that limited the post-retirement COLA on benefits accrued prior to the signing of the law were unconstitutional. Benefits could be modified prospectively, but not retrospectively. As a result, those who retired before the bills were passed will continue to receive a COLA tied to the Consumer Price Index that normally results in a 2% increase annually. PERS will make restoration payments to those benefit recipients. PERS members who have accrued benefits before and after the effective dates of the 2013 legislation will have a blended COLA rate when they retire. Oregon Public Employees Retirement System Notes to the Schedules of Employer Allocations and Pension Amounts by Employer As of and for the Fiscal Year Ended June 30, 2014. This is a change in benefit terms subsequent to the measurement date of June 30, 2014, which will be reflected in the next year's actuarial valuations. The impact of the Moro decision on the total pension liability and employer's net pension liability (asset) has not been fully determined. However, PERS' third-party actuaries have estimated the impact of the Moro decision under one possible methodology, which is summarized below (dollars in millions). Estimates have been rounded to the nearest \$10 million.

8. NET PENSION OBLIGATION (NPO) / OTHER POST-EMPLOYMENT BENEFITS (OPEB)

POST-EMPLOYMENT STIPENDS

An early retirement program is in effect for regular full-time teachers. To qualify for the plan, a teacher must have 15 years of experience in education, have been employed by the district for a minimum of ten years and be at least 58 years of age at retirement. Teachers receive a monthly payment of \$452 until age 65. This program is not available to any employee hired after July 1, 2004.

Teachers who have 30 years of participation with the Oregon Public Employees Retirement System and 20 years of service with the District are eligible for early retirement prior to age 58. They receive the dollar amount they would have received from age 58 to age 65 prorated monthly from age of retirement until age 65. Ten years of service prior to July 1, 2004 is required for full benefits. Benefits are prorated for individuals with less than ten years of service prior to July 1, 2004.

Administrators have an early retirement program available at age 58 after ten years of service. They receive 1% per month of their final year's salary to age 62 and \$200 per month from age 62 to age 65 and paid medical insurance coverage based on the amount at retirement date.

NOTES TO BASIC FINANCIAL STATEMENTS

8. NET PENSION OBLIGATION (NPO) / OTHER POST-EMPLOYMENT BENEFITS (OPEB) (Continued)

POST-EMPLOYMENT STIPENDS (Continued)

The annual pension cost and net pension obligation is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 50. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the annual pension cost for the year ending June 30, 2015, the amount actually contributed to the plan, and changes in the net pension obligation:

	 2013		2014		2015
Annual required contribution (ARC)	\$ 448,795	\$	416,357	\$	375,813
Interest on prior year Net Pension Obligation	\$ 25,838	\$	24,882	\$	23,668
Adjustment to ARC for Net Pension Obligation	\$ (388,596)	_\$_	(374,221)	_\$_	(355,965)
Annual Pension Cost (APC)	\$ 86,037	\$	67,018	\$	43,516
Expected Stipend Payments	\$ (113,345)	\$	(101,700)	\$	76,064
Increase in Net Pension Obligation	\$ (27,308)	\$	(34,682)	\$	(32,548)
Net Pension Obligation at beginning of year	\$ 738,220	\$	710,912	\$	676,230
Net Pension Obligation at end of year	\$ 710,912		676,230	\$	643,682
Percentage of APC contributed	25%		24%		20%

The annual pension cost and net pension obligation is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 50. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the annual pension cost for the year ending June 30, 2015, the amount actually contributed to the plan, and changes in the net pension obligation:

ACTUARIAL METHODS AND ASSUMPTIONS

The annual required contribution (ARC) for the current year was determined as part of the October 1, 2012 actuarial valuation using the projected unit credit cost method actuarial cost method. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about mortality, claim cost and the healthcare cost trend. The actuarial assumptions included; (a) a rate of return on investment of 3.5%, (b) health cost trend rate for medical and prescription drugs of 7.5% then downgraded accordingly until it reaches 5.25%; and (c) retirement rate assumptions. Amounts determined regarding the funded status of the plan and the annual required contribution of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

NOTES TO BASIC FINANCIAL STATEMENTS

8. NET PENSION OBLIGATION (NPO) / OTHER POST EMPLOYMENT BENEFITS (OPEB) (Continued)

Under this method, the Plan's benefit obligations for participants for past service are computed on a present value basis using projected benefits (including future accruals). The Accrued Liability is equal to a pro-rata portion of the total present value of benefits based on the ratio of service as of the valuation date to the projected service at assumed retirement (or other decrement).

As of October 1, 2014, the most recent actuarial valuation date, the plan was zero percent funded. The actuarial accrued liability for benefits was \$683,150 at October 1, 2014, and the actuarial value of assets was zero, resulting in an unfunded accrued liability (UAAL) of \$683,150. The covered payroll is not available. The Annual Required Contribution (ARC) for June 30, 2015 was actuarially determined to be \$375,813 for District contributions.

ANNUAL OPEB COST AND NET OPEB OBLIGATION (HEALTH INSURANCE)

The annual OPEB cost and net OPEB obligation is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the annual OPEB cost for the year ending June 30, 2015, the amount actually contributed to the plan, and changes in the net OPEB obligation:

		2013	 -	2014		2015
Annual Required Contribution	\$	340,042	\$	349,100	\$	256,614
Interest on prior year Net OPEB Obligation	\$	25,239	\$	29,590	\$	33,708
Adjustment to Annual Required Contribution	_\$_	(86,708)	\$	(101,656)	\$	(115,803)
Annual OPEB cost	\$	278,573	\$	277,034	\$	174,519
Contributions made	\$	(154,259)	\$	(159,376)	_\$	177,180
Increase in Net OPEB obligation	\$	124,314	\$	117,658	\$	(2,661)
Net OPEB Obligation at beginning of year	\$	721,121	\$	845,435	\$	963,093
Net OPEB Obligation at end of year	\$	845,435	\$	963,093	\$	960,432
Percentage of APC contributed		45%		46%		69%

NOTES TO BASIC FINANCIAL STATEMENTS

8. NET PENSION OBLIGATION (NPO) / OTHER POST EMPLOYMENT BENEFITS (OPEB) (Continued)

ANNUAL OPEB COST AND NET OPEB OBLIGATION (HEALTH INSURANCE) (Continued)

Actuarial Methods and Assumptions:

The annual required contribution (ARC) for the current year was determined as part of the October 1, 2014 actuarial valuation using the projected unit credit cost method actuarial cost method. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about mortality, claim cost and the healthcare cost trend. The actuarial assumptions included; (a) a rate of return on investment of 3.5%, (b) health cost trend rate for medical and prescription drugs of 7.5% then downgraded accordingly until it reaches 5.25%; and (c) retirement rate assumptions. Amounts determined regarding the funded status of the plan and the annual required contribution of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

Funding Status and Funding Progress:

As of October 1, 2014, the most recent actuarial valuation date, the plan was zero percent funded. The actuarial accrued liability for benefits was \$1,559,279, and the actuarial value of assets was zero, resulting in an unfunded accrued liability (UAAL) of \$1,559,279. The covered payroll is not available. The Annual Required Contribution (ARC) for June 30, 2015 was actuarially determined to be \$256,614 for District contributions.

9. PROPERTY TAX LIMITATIONS

The voters of the State of Oregon approved ballot Measure 5, a constitutional limit on property taxes for schools and non-school government operations, in November, 1990. School operations include community colleges, local school districts and education service districts.

The limitation provides that property taxes for school operations are limited to \$5.00 for each \$1,000 of property market value. This limitation does not apply to taxes levied for principal and interest on general obligation bonded debt. The result of this initiative has been that school districts have become more dependent upon state funding and less dependent upon property tax revenues as their major source of operating revenue.

The voters of the State of Oregon passed ballot Measure 50 in May, 1997 to further reduce property taxes by replacing the previous constitutional limits on tax bases with a rate and value limit. The District's permanent operating property tax rate was fixed at \$4.7448 per thousand of assessed value.

Measure 50 reduced the amount of operating property tax revenues available to the District for its 1998-1999 fiscal year, and thereafter. This reduction was accomplished by rolling assessed property values back to their 1995-96 values less 10%, and limiting future tax value growth of each property to no more than 3% per year, subject to certain exceptions. Taxes levied to support bonded debt are exempted from the reductions. The Measure also sets restrictive voter approval requirements for most tax and many fee increases and new bond issues, and requires the State of Oregon to minimize the impact of the tax cuts to school districts. The ultimate impact to the Districts as a result of this measure has been greater reliance on state funding and less reliance on local funding. However, Seaside relies more heavily on Timber Revenue and local funding.

NOTES TO BASIC FINANCIAL STATEMENTS

10. LONG-TERM DEBT

The following changes occurred in the liabilities during the year ended June 30, 2015:

11. RISK MANAGEMENT

There is exposure to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. Commercial insurance is purchased to minimize exposure to these risks. Settled claims have not exceeded this commercial coverage for any of the past three years.

NOTES TO BASIC FINANCIAL STATEMENTS

12. COMMITMENTS AND CONTINGENCIES

A substantial portion of operating funding is received from the State of Oregon. State funding is determined through state wide revenue projections that are paid to individual school districts based on pupil counts and other factors in the state school fund revenue formula. Since these projections and pupil counts fluctuate they can cause either increases or decreases in revenue. Due to these future uncertainties at the state level, the future effect on operations cannot be determined.

A number of federally assisted grant programs are participated in. These programs are subject to program compliance audits by the grantors or their representatives. The federal audits for these programs for the year ended June 30, 2015 have not been conducted. Accordingly, compliance with grant requirements will be established at some future date. The amount, if any, of expenditures which may be disallowed by the granting agencies cannot be determined at this time, although such amounts, if any, are expected by management to be immaterial.

13. OPERATING LEASE AGREEMENTS

LEASE RECEIVABLE

On December 15, 2006, an agreement with the City of Seaside was entered into to allow the City to continue to lease the following described property: Seaside Chamber of Commerce Office Building, restrooms, parking facilities, together with other pertinent structures. It was agreed that the City would assume all of the responsibility for maintenance and upkeep of the improvements and the grounds and carry insurance coverage as full consideration of the rental. The lease is set to expire on December 15, 2031.

LEASE PAYABLE

On August 23, 2012 a five year operating lease agreement for three copier machines was entered into with ABS Finance. The monthly charge for this service is \$2,121. This lease will expire on September 30, 2017. Lease payments for the year ended June 30, 2015 totaled \$25,452.

Future minimum operating lease obligation is as follows:

Year Ended	
June 30,	Amount
2016	\$ 25,452
2017	25,452
2018	6,363
Total	\$ 57,267
	La Carrier and a Carrier

NOTES TO BASIC FINANCIAL STATEMENTS

14. SHORT-TERM OBLIGATIONS

The following changes occurred in short-term obligations during the year ended June 30, 2015:

	Interest Rates	Original Issue	Beginning Balance	Additions	(Reductions)	Ending Balance	Due Within One Year
Tax Revenue Anticipated Note Tax Revenue Anticipated Note	0.25% 0.30%	\$ 800,000 975,000	\$ 800,000	\$ - 975,000	\$ (800,000)	\$ - 975,000	\$ - 975,000

INDEPENDENT AUDITORS' REPORT REQUIRED BY OREGON STATE REGULATIONS

PAULY, ROGERS, AND Co., P.C. 12700 SW 72nd Ave. Tigard, OR 97223 (503) 620-2632 (503) 684-7523 FAX www.paulyrogersandcocpas.com

December 7, 2015

Independent Auditors' Report Required by Oregon State Regulations

We have audited the basic financial statements of the Seaside School District as of and for the year ended June 30, 2015, and have issued our report thereon dated December 7, 2015. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and Government Auditing Standards.

Compliance

As part of obtaining reasonable assurance about whether the basic financial statements are free of material misstatement, we performed tests of compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statues as specified in Oregon Administrative Rules 162-10-000 through 162-10-320 of the Minimum Standards for Audits of Oregon Municipal Corporations, noncompliance with which could have a direct and material effect on the determination of financial statements amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion.

We performed procedures to the extent we considered necessary to address the required comments and disclosures which included, but were not limited to the following:

- Deposit of public funds with financial institutions (ORS Chapter 295)
- Indebtedness limitations, restrictions and repayment.
- Budgets legally required (ORS Chapter 294).
- Insurance and fidelity bonds in force or required by law.
- Programs funded from outside sources.
- Authorized investment of surplus funds (ORS Chapter 294).
- Public contracts and purchasing (ORS Chapters 279A, 279B, 279C).
- State school fund factors and calculation.

In connection with our testing nothing came to our attention that caused us to believe the Seaside School District was not in substantial compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules 162-10-000 through 162-10-320 of the Minimum Standards for Audits of Oregon Municipal Corporations except as noted on page 16 of this report.

OAR 162-10-0230 Internal Control

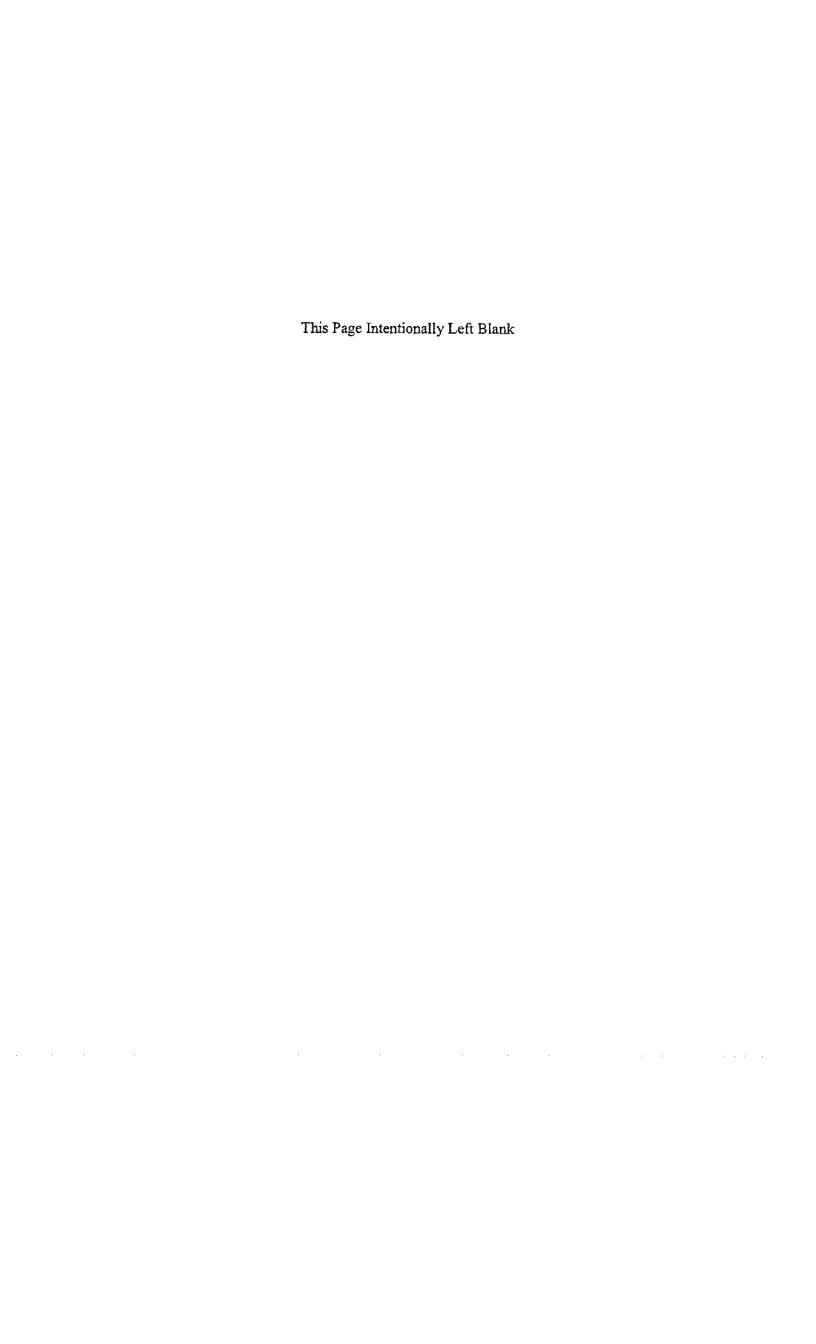

In planning and performing our audit, we considered the internal controls over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the basic financial statements, but not for the purpose of expressing an opinion on the effectiveness of the internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the internal controls over financial reporting.

This report is intended solely for the information and use of the Board, management and the Oregon Secretary of State and is not intended to be and should not be used by anyone other than these parties.

GRANT COMPLIANCE REVIEW

PAULY, ROGERS, AND CO., P.C. 12700 SW 72nd Ave. Tigard, OR 97223 (503) 620-2632 (503) 684-7523 FAX www.paulyrogersandcocpas.com

December 7, 2015

To the Board of Directors Seaside School District Clatsop County, Oregon

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the basic financial statements of the governmental activities and each major fund of Seaside School District as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the basic financial statements, and have issued our report thereon dated December 7, 2015.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the basic financial statements, but not for the purpose of expressing an opinion on the effectiveness of internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the basic financial statements will not be prevented, or detected and corrected on a timely basis.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the basic financial statements are free from material misstatement, we performed tests of compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

December 7, 2015

To the Board of Directors Seaside School District Clatsop County, Oregon

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

Report on Compliance for Each Major Federal Program

We have audited Seaside School District's compliance with the types of compliance requirements described in the OMB Circular A-133 Compliance Supplement that could have a direct and material effect on each of the major federal programs for the year ended June 30, 2015. The major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of compliance.

Opinion on Each Major Federal Program

In our opinion, Seaside School District, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of the major federal programs for the year ended June 30, 2015.

Report on Internal Control Over Compliance

Management is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

1. BASIS OF PRESENTATION

The schedule of expenditures of federal awards includes federal grant activity and is presented on the modified accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.
